

MINING, BUSINESS AND STOCKS

SIOUX CON. ON
UP GRADE AGAIN

This Tintic Stock Was in Active Demand During Today's Early Calls.

MAY DAY IN FINE FORM.

Brokers Bought It at Sixty Cents—Record of Closing Sales and Quotations.

Sioux Consolidated did some sprinting today and when the gavel dropped at the close of the forenoon calls, it was in demand at 64 cents. This little turn upward in Sioux Consolidated has not been entirely unexpected, for those who understand just how conditions are, know that the mine has a most promising future. It is significant too, that holders of the larger interests have not been sellers to any great extent, or at all, but on the contrary have been buyers. May Day continued strong with brokers bidding 60 cents for it freely. Colorado remained unchanged, while Crown Point displayed a tendency to improve. Tintic Sam was active at \$1.40 and \$1.42, while Yankee Con. went up to 70 cents.

West Quincy sold at 17 cents on the open board and Copper Glance at 16 cents. The closing quotations and sales were:

TINTIC'S COLORADO.

Visitor Sees Millions of Dollars Worth of Ore in Mine.

The Colorado Mining company has been besieged at its mine at Tintic by scores of visitors anxious to go through the mine, according to the report of a prominent mining man of Salt Lake. "And after a visit underground," he stated, "I am not surprised that even strangers find much to interest them. The mine is certainly a promising one, and while I may be mistaken, I think I saw several millions of dollars worth of ore ready to be taken out. The mine has already been drifted upon for about 1,400 feet, and nothing but ore has been encountered.

"The Colorado cave is a wonderful awe-inspiring to stand under the great cavern and hear an occasional rock drop from the ceiling, and see near where one has to walk, the huge boulders that have come down from above, in my opinion the company would do well to discontinue its two visiting days out of each month until the cave is perfectly safe, for it is a wonder to me that already some unsuspecting visitor has not been killed."

EIGHTEEN-CENT COPPER.

One of the eastern correspondents of James A. Pollock & Company wired today that an agreement had been reached between the producers and consumers of copper, and that the price to be fixed would be around 18 1/2 cents.

If this is the case, there should be a notable improvement in the price of stocks. Eighteen-cent copper would be perfectly satisfactory to every Utah producer.

NEW STOCKTON MINE.

Equipment for Mill Has Been Shipped From Milwaukee.

New machinery for the New Stockton Mining company is on the way to the mine from Milwaukee, according to a statement made by Supt. Tom Galtiger, who left yesterday for the property to supervise some new diggings on the 500-foot level. The machinery, which is to be used in the addition to be built to the mine, has been on the way for some time, but like all heavy shipments, has met with considerable delay. The new find on the 500-foot level has proven to be quite an important one, and the company is said to have suffered considerable inconvenience in handling the new ore with the older part of the mine in its usual good form. Mr. Galtiger stated that the ore at the 500-foot level was not unbroken, but the extent of the ore body, he says, has exceeded their expectations.

The main shaft of the New Stockton has been sunk 35 feet below the 1,100-foot level, and will be continued to the 1,200-foot level as rapidly as possible.

NEW MINING COMPANIES.

The Orizaba Consolidated Mining & Smelting company of this city filed its articles of incorporation with the county clerk today. The capital stock of the company is \$1,000,000, divided into shares of the par value of \$1 each. J. P. Rutter, vice president; Harry J. Robinson, secretary. These, with W. E. Hubbard and S. A. Olympus, comprise the board of directors. The company owns the Butte group, containing 13 claims, located in Bingham.

Articles of incorporation of the Creighton Consolidated Mining company of this city were also filed in the county clerk's office today. Its capital stock is \$1,000,000, divided into shares of the par value of 10 cents each. John Clark is president; T. R. Ellerbrook, vice president; J. E. Clark, secretary and treasurer. The company owns the Copperopolis group of six claims located in Lander county, Nev.

SUE'S COLUMBUS CON.

C. Fred Wilcox Jr., filed suit in the district court today against the Columbus Consolidated Mining company to recover damages in the sum of \$25,000 for personal injuries received while employed in defendant's mine at Alta on Aug. 29, 1906. Plaintiff alleges that he was going from the 300-foot level to the 200-foot level in a car with five other workmen when he was hit by a large beam which was permitted to remain too close to the car. His spinal column was dislocated, his chest crushed and his heart and lungs seriously injured. He claims that the company was negligent in having the beam so close to the car and also in permitting more than four men to ride in the car at one time.

UTAH MINE SHAFT.

The old main shaft of the Utah Mine at Flat Springs has again been opened and timbered down as far as the 500-foot level, and ore is being taken out rapidly. The timbering in this shaft were destroyed by fire some time ago down to the 800-foot level and the work of re-timbering has been a tedious one, principally owing to the isolated location of the mine.

AMENDS ARTICLES.

An amendment to the articles of incorporation of the Sioux Consolidated Mining company of Robinson, Utah, was filed with the secretary of state today by which the principal office of the company is changed to Provo and also reducing the par value of the stock from \$10 to \$1 per share.

GOLDFIELD MEN
BACK TO WORK

Dispatch From San Francisco Says Federation of Miners Has so Ordered.

GOLDFIELD CON. MINE.

Trouble Arose Over Inauguration of Change Room System to Prevent Highgrading.

Pollock's Special Wire.)

San Francisco, Aug. 29.—Advisers from Goldfield state the miners have been ordered back to work by the officers of the Western Federation of Miners, and that this is about the best result that has been received from the Nevada gold camp in a long time and means that the Goldfield district is not going to suffer the effects of another year war in the immediate future. The cause of the late difficulty, and which resulted in the miners employed in the Goldfield Consolidated mines walking out, was the inauguration of the change room system by the management of that company. In the past the officials of the company, as well as the miners, have been working on the property, state that they have lost many thousands of dollars through the operation of "high grade" mines, and that the cause of the late difficulty, and which resulted in the miners employed in the Goldfield Consolidated mines walking out, was the inauguration of the change room system by the management of that company. In the past the officials of the company, as well as the miners, have been working on the property, state that they have lost many thousands of dollars through the operation of "high grade" mines, and that the cause of the late difficulty, and which resulted in the miners employed in the Goldfield Consolidated mines walking out, was the inauguration of the change room system by the management of that company.
